Patterns

DNA Key Fob

paracordgalaxy.com

Materials:

Two pieces of 550 paracord cut to
2 feet each

Split Ring

{Cost for this project starts at \$2.40}

paracordgalaxy.com

Step 1: Bring about five inches of both
cords through the split ring. Lay the cords
so the short sides are between the long
sides as shown.

paracordgalaxy.com

Step 2: Bring the right cord over the short
center cords and under the left cord.

Step 3: Take the left cord behind the
center cords and up through the loop
created by the cord on the right.

Pull the left and right cords tight. Then
repeat steps 2 and 3 until you have about
an inch left on the center cords.

Once you have about an inch left, trim and melt the left and right cords. You can also trim the center cords or leave them.

This is a great way to use your shorter leftover scraps of paracord
