Patterns

## Mad Max Adjustable Bracelet

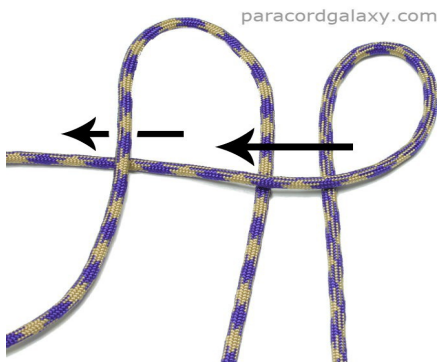

Materials:  
10 ft 550 paracord  
Forceps or FID (lacing needle)

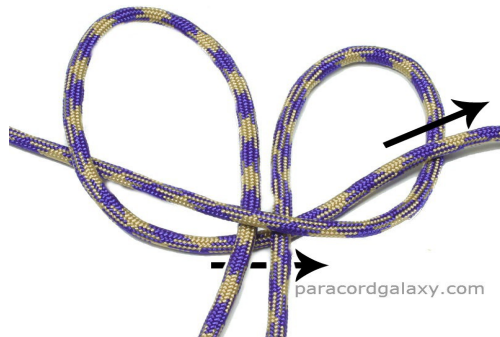

**Step 1:** Fold paracord in half and measure out the length you want for the bracelet.

**Step 2:** Start the weave at the open end. Bring each end down as shown.

**Step 3:** Bring the right cord over the center two cords and under the left cord.

**Step 4:** Bring the left cord under the center two cords and up through the loop on the right.

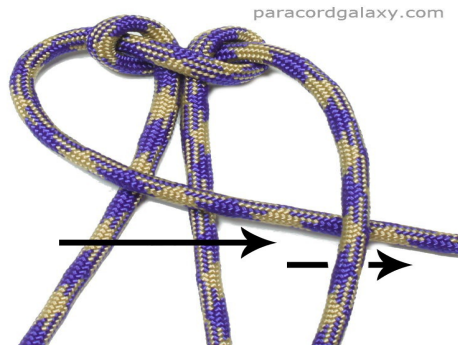

Pull the slack, but not too tight.

**Step 6:** Bring the right cord under the two center cords and up through the loop on the left.

Repeat steps 3 through 6 creating a cobra weave until you reach the bottom leaving a small loop.

**Step 5:** Bring the left cord over the center two cords and under the right.

Pull tight leaving small loops at the top. This is where you will insert the cord at the end to make the bracelet.

**Step 7:** Bring the cord on the right down through the loop.

Patterns

**Step 8:** Bring the left cord up through the same loop.

Pull tight.

**Step 9:** Use your forceps or lacing needle to bring one cord through each loop at the opposite end of the bracelet.

**Step 10:** Finish the end by making a simple overhand knot or make a two strand diamond knot. Cut and melt the ends to finish.
