House of Java is a great place! Maam Teresita and her Husband are very friendly and accommodating. The place is great, clean, peaceful, and very near restaurants and coffeeshops. I would highly recommend this place and I would stay here again when I'm back in Cdo.

I had a nice stay in House of Java. The owner is very accomodating. They have fast internet connection and the room has it's own router.

The room is very neat and clean. Feels like home.

The place is nice, with lots of greenery. The room has an interesting arrangement.

The host, Mrs. Teresita is super friendly and will totally make you feel at home. She helped me out with directions and gave some recommendations. She's a warm person and nice to chat with.

Mr. Per gave clear instructions and is open to requests.

Overall, it is a relaxing and fun stay.

Hey there! Just wanted to drop a quick review about my recent stay at this Airbnb. Honestly, it's a gem! The location is super convenient, right in the heart of the city, and the price is really affordable considering that. The owners are incredibly accommodating, making sure everything was smooth sailing. The place itself is so cozy, with a lovely garden vibe. Plus, the room was spotless, and the air conditioning was a huge bonus. They even offer free water and the option to heat your own - talk about going above and beyond! Definitely planning to come back here next time I'm in town. Highly recommend it!

The hosts went above and beyond with their customer service. Mr. Per gave a clear instructions regarding the house rules and how to check in. Mrs. Teresita was very helpful, welcoming, and approachable. Any request from them were given right away. This is a good place to stay, with good people who will be there for you. The room was very clean and organize. Absolutely will recommend this place.

I checked in earlier than expected, and they were very accomodating and friendly. Also responds fast.

The room was nicer than the picture!

Internet is good, room is airconditioning is good, bathroom is good.

The place is quiet, considering the location (except for the church bells, but that's fine). The garden is wonderful!

You can easily book an Angkas, GrabFood, FoodPanda (just type House of Java). The couple will make sure you get out and get back safely. They even asked for the riders' names, and told them to bring me safely to my destination 🤗

I'm gonna stay here everytime I visit Cagayan de Oro! ❤️

House of Java is a home away from home. Good size airconditioned room and toilet. Nice shower. It is clean and quiet. Offers free water and basic toiletries including towel. Hosts are responsive, hospitable, and helpful. I would love to stay again in this place! Thank you Ate Teresita and Pier for your lovely homestay!

I am very grateful for this couple for having me in their place. The accommodation can compare to a 3 star hotel. Complete with towel, shampoo, soap, hangers, plastics, and everything you need in a hotel accommodation. Mrs. Teresita Java is very approachable and very friendly. Mr. Per Java is very helpful. Highly recommend! I will surely come back in this place once I visit CDO again. Thank you so, so much for such kind hospitality! 🙏🙏🙏

The owner was very accommodating. The owner even walked me to Limketkai Mall (magnum express) because my flight was in the morning. She also made sure that I'm well taken care of every time I ride an Angkas. The room is also spacious and the bathroom is very clean. I like that the place is walkable to limketkai. Thank you so much! I enjoyed my stay in CDO. Will definitely come back soon.

Clean, cozy 2nd floor stair access with security gate. Responsive, on-site host with a large garden complete with herbal remedies. On-site laundry. Not a single cockroach or rat. Near a great vegan restaurant and Pearlmont hotel (excellent restaurant).

I work remotely so a fast internet connection is a must and during my stay I didn't have internet issues because there's a router in my room (I think each room has one). It's so quiet even if it's located in the middle of the city. It's around 10 minutes walk to Limketkai Mall, there's a cafe (Coffee Project) around 5 minutes on the way to Limketkai and even more inside and outside the mall. I had food delivered most of the time, and the drivers had no issues locating House of Java. The bed and pillows is just so comfortable, maybe one of the reasons I barely go out lol. I am traveling solo, and I was surprised because it's very private and secured. Maam Tes and Sir Per is very nice and accommodating as well. I extended my stay for a couple of days too and will surely stay here if I comeback to CDO in the future.

Owner is very accomodating and the place is peaceful .

Donna Mariel

Iligan City, Philippines

★★★★★ · October 2022

My stay at the House of Java was one of the comfi -est and stress free experience. Ma'am Teresita and Sir Per were wonderful as hosts. They were very kind to assist us in every way and they were very hospitable and welcoming. The internet speed is good, cleanliness is definitely a 100, I did love that they have curfew hours so I have a very peaceful sleep, location itself is very strategic, and ambience is very homey since they have a very

environmental friendly place.

If ever I'll be in CDO and choose a place to stay, I'd definitely choose House of Java again. Thank you so much Ma'am Tes and Sir Per for our lovely stay! Till we meet again!

PS. Their dog is very friendly too! ❤️

★★★★★ · July 2022

House of Java for me is really good for me, it's neat and clean. The internet is fast, the place is near market, malls and church... it's in downy 😊 the couple owner are very responsive because when I ask then for an early check in about 6:30 am there no problem at all.. they even help me carry my luggage at my room. Ate Tere, is also mabait, we even have a chitchat during my day off 😊

Jenikka Gizelle

Manila, Philippines

★★★★★ · July 2022

I enjoyed my stay here. It is a great value for money. My room had a desk I could work at. I had my own washroom and the water pressure on the shower was great! The bed was comfortable and everything looked clean when I checked in.

The location is perfect if you want to be close to everything in the city but keep some distance for some quiet days in. I liked sitting on the top floor when I worked during the day. You get some nice fresh breeze coming in. The hosts were also extremely nice and accommodating. They checked up on me from time to time to ask how I was doing and if there was anything to make my stay more comfortable. I really appreciate that.

★★★★★ · June 2022

The hosts were very accommodating and hospitable, I had a very early check-in at 8AM! The room was spacious and very clean. The AC was really cold and the Wifi connection was very fast, around 60Mbps if I remember correctly. Had no trouble working remotely. The location was very near Limketkai Center (walking distance) and I had no trouble with my food and groceries though food/grocery delivery services were also available. Drinking water was available for free which I really liked as I didn't have to buy and carry gallons of water from the grocery. Centrio Mall and SM CDO Downtown Premier were also just a couple minutes away, about 15-20mins walk.

Public transportation like jeepneys and taxi were also very accessible. You are definitely getting the best value for your money if you stay at House of Java!

Norie

Bacolod, Philippines

★★★★★ · April 2022

a quiet and peaceful place to stay despite of the busy city..if you love nature this place is for you..the owners are very accommodating. I will recommend this place to my friends too..
